

Bharani Shree R

Python Developer

Chennai, Tamil Nadu | bharanishree2002.08@gmail.com | +91 7904634312 | linkedin.com/in/bharanishree

Summary

Python Developer with 2 years of experience designing and deploying production-grade RESTful APIs using FastAPI and Django. Proficient in JWT/OAuth2 security, async task processing with Celery and Redis, database optimisation (PostgreSQL, MySQL), and containerised deployments via Docker and GitHub Actions CI/CD. Delivered scalable ERP, government, and MIS reporting platforms in Agile environments with a focus on performance, security, and clean architecture.

Experience

B2E Technology, Chennai — Python Developer

June 2024 – May 2026

FastAPI | Django | DRF | JWT | RBAC | Celery | Redis | PostgreSQL | MySQL | SQLAlchemy | Docker | GitHub Actions

- Developed scalable RESTful APIs using FastAPI and Django with JWT authentication and Role-Based Access Control (RBAC).
- Built responsive frontend interfaces with HTML, CSS, Bootstrap, and JavaScript integrated with backend REST APIs for ERP and reporting dashboards.
- Designed modular backend architectures; optimized PostgreSQL and MySQL schemas improving system performance across ERP platforms.
- Implemented async background task processing using Celery and Redis for scheduled and event-driven workflows.
- Deployed services using Docker; configured CI/CD pipelines with GitHub Actions for automated testing and deployment.
- Integrated third-party SMTP and external APIs; wrote Pytest unit/integration tests; participated in Agile/Scrum sprints and code reviews.

Technical Skills

Languages: Python, SQL, JavaScript

Frameworks: Django, FastAPI, Django REST Framework (DRF), SQLAlchemy, Pydantic

Backend: RESTful APIs, JWT/OAuth2, RBAC, Celery, Redis, OOP, Microservices, Async Processing, Task Queues, MCP (Model Context Protocol)

Frontend: HTML, CSS, Bootstrap, JavaScript

Databases: PostgreSQL, MySQL, SQLite, Redis

DevOps & Tools: Docker, Git, GitHub Actions (CI/CD), Postman, Swagger/OpenAPI, DBeaver, Pytest, VS Code, PyCharm

Others: Debugging, SQL Reporting, API Documentation, Code Review, Performance Optimization, Agile, Scrum

Projects

ERP Management System

FastAPI, MySQL, SQLAlchemy, JWT

- Designed backend services using FastAPI and DRF for staff, student, and academic workflows including approval chains and condition-based execution flows.
- Improved system performance by **30%** through query indexing; reduced data processing time by **80%** via API optimizations.
- Implemented JWT and RBAC; documented all endpoints using Swagger/OpenAPI for faster frontend team onboarding.

AI-Integrated API Service using FastAPI and MCP

FastAPI, MCP, Claude, REST API

- Designed and developed a RESTful API using FastAPI, exposing structured endpoints for data retrieval and processing.
- Integrated the API with an MCP (Model Context Protocol) server, enabling AI models like Claude to discover, call, and consume the API directly within a conversational interface.
- Configured tool definitions and request/response schemas to allow Claude to invoke FastAPI endpoints and return live API responses as part of natural language interactions.

TN Government – Public Health Training Portal

Django, DRF, PostgreSQL, JWT, JavaScript

- Built a centralized government platform managing internship and training workflows across Tamil Nadu's public health department for multiple institutions.
- Designed multi-stage approval workflows to process and track training requests, reducing manual coordination across departments.
- Implemented reporting-friendly PostgreSQL structures for real-time monitoring; enforced RBAC and JWT security; documented APIs via Swagger/OpenAPI.

MIS Reporting Portal

Django, FastAPI, DRF, PostgreSQL, Bootstrap, JavaScript

- Developed a scalable multi-tenant MIS platform supporting reporting and administrative workflows for academic institutions.
- Implemented RBAC for HODs, faculty, and compliance teams; built dynamic filtering for department and academic year report generation.
- Integrated database-driven configurations supporting flexible scheduling, task management, and system adaptability across tenants.

Education

B.Sc. Computer Science — Justice Basheer Ahmed Sayeed College for Women, Chennai

June 2021 – April 2024

CGPA: 7.2 / 10
